

TULSI R. DOUNEKAR

Nagpur, Maharashtra 440018 | +91 9405563596 | tulsidounekar07@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

Education

KDK College of Engineering, Nagpur

2021 - 2025

B.Tech, Computer Science and Engineering | CGPA: 8.09/10, First Division

Experience

DATA SCIENCE INTERN - CodSoft [Offer Letter](#)

Aug 2026

- Worked on a fraud detection use case, applying machine learning to identify fraudulent transactions in imbalanced financial data.
- Handled the complete workflow of data cleaning, exploratory data analysis, model building, and evaluation using Python and Scikit-learn.
- Delivered a Random Forest-based model achieving 99%+ accuracy, benchmarked using Precision, Recall, F1-Score, and Confusion Matrix.

PYTHON DEVELOPER INTERN - BroskiesHub [Internship Completion Letter](#) | [Offer Letter](#)

Jul 2025 - Aug 2025

- Worked on Python application development spanning CLI utilities, GUI-based apps, and Flask REST APIs, gaining hands-on exposure across different areas of the language.
- Built and delivered a restaurant billing system with automated tax/discount calculation, SQLite integration, and PDF/CSV export.

SALESFORCE DEVELOPMENT INTERN [Certificate](#)

Apr 2023 - May 2023

- Improved data collection accuracy by designing dynamic field updates and validation rules, and customized Salesforce applications using Apex and Visualforce.

Projects

CREDIT CARD FRAUD DETECTION | [GitHub](#)

- **Technology:** Python, Pandas, NumPy, Scikit-learn, Random Forest, Matplotlib, Seaborn, Jupyter Notebook, Git/GitHub
- **Objective:** Developed a machine learning model to detect fraudulent credit card transactions.
- **Key Achievements:** Performed data preprocessing, EDA, and analyzed class imbalance. Built a Random Forest model with 100 trees, achieving 99%+ accuracy. Evaluated the model using Precision, Recall, F1-Score, and Confusion Matrix, and saved the trained model using Joblib
- **Impact:** Developed a fraud detection model to identify potentially fraudulent transactions and automate fraud analysis.

LAPTOP PRICE PREDICTION USING MACHINE LEARNING | [Certificate](#)

- **Technology:** Python, Streamlit, Scikit-learn, Pandas, NumPy, Matplotlib, ML, Data Preprocessing, visualization.
- **Objective:** Build a model to predict laptop prices from configuration data and make it accessible for real-time use.
- **Key Achievement:** Developed and deployed a Laptop Price Prediction model using web-scraped data, achieving 92% accuracy through preprocessing and model tuning. Performed EDA and model comparison using Matplotlib, Seaborn, Decision Tree and, deployed on Streamlit.
- **Impact:** Developed a laptop price prediction solution for accurate, real-time price estimates.

RESTAURANT BILLING APPLICATION | [GitHub](#)

- **Technologies:** Python, Tkinter, SQLite3, Pandas, Datetime, ReportLab/FPDF. Implemented automated bill generation with tax/discount handling and export options (PDF/CSV).
- **Objective:** Build a desktop application to automate billing, tax/discount calculation, and sales tracking.
- **Key Achievement:** Developed a Restaurant Billing Application using Python, Tkinter, and SQLite3 with automated billing, tax/discount calculation, table management and PDF/CSV export, improving billing accuracy and reducing manual errors.
- **Impact:** Automated restaurant billing and sales tracking, reducing manual entry errors and improving billing accuracy and efficiency.

Skills

- **Programming:** Python, [Java](#), SQL, [C](#)
- **Data Science & Analysis:** NumPy, Pandas, EDA, Data Preprocessing, Feature Engineering, Statistical Analysis
- **Data Visualization:** Matplotlib, Seaborn
- **Databases:** MySQL, SQLite
- **Tools & Platforms:** Git, GitHub, Jupyter Notebook, Google Colab, VS Code, Joblib
- **Concepts:** OOP, Data Structures & Algorithms (Basics), DBMS, SDLC, Operating Systems

Extracurricular Activity

- Tech Head, NSS (2024-2025) — [Certificate](#)
- Mentor, NSS (2023-2024) — [Certificate](#)
- Assistant Joint Secretary, PICSEL Departmental Forum (2023-2024) — [Certificate](#)
- Event Head, Spectra Coding VD at Fahrenheit (2023) — [Certificate](#)
- Kabaddi 2nd Position Winner at Novamesh Sports Event (2023) — [Certificate](#)
